By Ronald Evans

Troubador Publishing. Paperback. Book Condition: new. BRAND NEW, Greenglow: & The Search for Gravity Control, Ronald Evans, This book describes an exciting, but unfinished scientific adventure story. It tells of the epic struggle by scientists to wrest the secrets from nature of how to control the force of electromagnetism and how to control aerodynamic forces. Control of the force of gravity has yet to be achieved. Analogies suggest where a breakthrough might be made. Greenglow & the search for gravity control follows the attempts mankind has made over the years to understand gravity as well as looking at more recent experiments to control it. The book is written by an engineer, who worked in the aerospace industry, and who persuaded BAE Systems to sponsor Project Greenglow, a small research programme aimed at investigating some ideas for controlling gravity. Based on analogies in nature, the book provides a road map for scientists, engineers and the general public who want to know more about gravity and our search to control it. Discovering nature's secrets is an exciting, but unfinished story - there is much we still don't know. The book describes the quest by scientists to gain control of gravity and electromagnetism,...
