

## An Elementary Algebra (Paperback)

Filesize: 2.89 MB

### Reviews

*This publication will be worth purchasing. It really is written in simple terms instead of difficult to understand. Its been designed in an exceptionally simple way and is particularly only right after i finished reading this ebook in which basically modified me, alter the way i believe.*  
*(Prof. Loyce Runolfsson Jr.)*

Rarebooksclub.com, United States, 2012. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.This historic book may have numerous typos and missing text. Purchasers can usually download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1873 edition. Excerpt: .coefficient, and multiply the exponents of the letters by 3; hence, to find the cube root of the given monomial we reverse the process; that is, we extract the cube root of its coefficient, and divide the exponents of the letters by 3. The cube root thus found is  $5a^3z$ . 2. Find the square root of  $36er^6$  Solution. Since finding the  $m \times Jtf$  square root of a quantity is the reverse of squaring the root, we extract the square root of the coefficient of the given quantity, and divide the exponents of its letters by 2. The square root thus found, which may be either positive or negative (Art. 244, 2), is  $6ab^3$ . Find the fourth root of  $81afy$ . Ans.  $3x y$ . 246. Rule for Evolution of Monomials.--Extract the required root of the numerical coefficient, divide the exponent of each letter by the number denoting the index of the required root, and give the proper sign to the result. The root of a fraction is found by taking the root of the numerator and of the denominator. CASE II. Square Root of Polynomials. 247.--Ex. 1. Find the square root of  $a^2 + 2ab + b^2$ . Solution. From the nature of the  $a^2 + 2ab + b^2$  square of a polynomial (Art. 239, Prin. 2), i the first term of the given square will be  $2a$  )  $2ab$  r  $b^2$  the square of the lirst term of the required  $2a b$ ) $b$ ...
