In order to develop students' computing power, to teach students the mouth count, speed count the skills, training students quick thinking, good students number sense, we organized the National Curriculum test and teacher to some prestigious grade teacher carefully prepared set of little champion Huanggang port operator quick calculation workbooks. We set I counted fast calculation based on the content in the past, but also the organization of national elite line of outstanding teachers to conduct a careful revision, functions and features more prominent, more practical, specifically, the following points: 1. Simultaneously with the materials I count, speed calculation, written calculation of the training. Closely linked to the teaching of elementary school mathematics content and curriculum parallel port operator, speed calculation, written calculation of the training. We count more than size, numeracy, length unit conversion, time, unit conversion, area and volume calculations, statistics, solving equations, the solution included in the calculation of the proportion of so range, low-grade to port operators, quick calculation based, in , high school to fast...
